**Abrasion resistance:** 45,000
**Quality Marks :** OKEOTEX

# CERTIFICATIONS

OEKO-TEX® certification is an international standard that ensures textiles are free from toxic chemicals, heavy metals, and harmful dyes. It's one of the most trusted labels for textile safety worldwide.

The Trevira CS brand stands for textiles made of 100% flame retardant fibres and yarns by Trevira and their partners in the spinning and yarn finishing stages.

**PET yarn** stands for **Polyethylene Terephthalate yarn**, commonly known as **polyester yarn**.
It is made by melting PET plastic (often recycled plastic bottles) and converting it into fine fibers and then yarn.
